**ONE18MEDIA LAUNCHES NEW DANCE MASSAGE WORKS WEBSITE**

*Former professional dancer teaches therapists and improves dancers with hands-on techniques*

Digital marketing company ONE18MEDIA recently launched a website for Dance Massage Works, an educational organization that focuses on the instruction and improvement of dancers and therapists through hands-on teaching techniques and an interactive curriculum.

The website features the various workshops that Dance Massage Works offers, including Dance Massage, BodyBall Massage and Science of Flexibility. Kerrie Flynn, a former professor of orthopedics and sports pathologies at the Pacific College of Oriental Medicine and founder of Dance Massage Works, has divided her organization into these three workshops in emphasis of body awareness, alignment and dance in an effort to improve students' performance and technique and prevent injuries.

“We are so excited to be working with the very talented Kerrie Flynn,” said ONE18MEDIA President AJ Sonnicks. “We have expanded Kerrie’s digital abilities with online registration and a truly interactive experience, and we look forward to the many great things we will accomplish together.”

In addition to website and graphic design, ONE18MEDIA offers services in social media, online and email marketing, content creation and management, and research and consulting. Since the founding of its parent company Long Island Shore Media Group in 2014, ONE18MEDIA has grown substantially, servicing clients across the Long Island area, New York City and California. Sonnicks and his team encourage business owners and organizations to reach out to ONE18MEDIA for online marketing and web design expertise.
